Susan had a headache.
Activity 4: Can you guess the illness?

It usually begins with a sore throat.
You have a runny nose and a cough.
Sometimes you have a mild fever.

It's a pain you feel in your ear, usually due to an infection.

It's an illness caused by a virus. You feel pain in your body muscles and you have a high temperature. You feel sick and weak.

You have it when your throat hurts.
It makes you cough.

To expel air from your lungs suddenly and noisely.

You have it when your head hurts.

...and a bit more:

Part of your body that gets hot when you have a high temperature.

Person you visit when you are ill.

Place you go when you don't feel well.

It's too tiny and causes flu.
